

XXVI JIMENEZ DIAZ MEMORIAL LECTURE

PROGRAMME

May, 17th

16.00 Symposium on **Experimental Nephrology**

Invited speaker: **Professor Barry M. Brenner**

Harvard Medical School, Boston, U.S.A.

Renal function and the liver

" Intrarenal alterations in experimental liver cirrhosis"

J. García Estañ. Facultad de Medicina. Murcia

" Natriuretic peptides and renal function homeostasis in liver cirrhosis"

P. Angeli, W. Jiménez. Hospital Clínico. Barcelona

Hypertension

" Glomerular hemodynamic alterations in essential hypertension"

J. Díez. Universidad de Navarra. Pamplona

" Characteristics of Hypertension induced by synthesis inhibitors of NO"

V. Lahera. Universidad Complutense. Madrid

" Role of NO in the mechanism of action of antihypertensive drugs"

V. Cachofeiro. Facultad de Medicina. Madrid

Vasoactive mediators

" Effects and interactions of endothelin and NO on the activation of neutrophils"

A. López Farré. Fundación Jiménez Díaz. Madrid

" Regulation of NO synthesis in endotelial and mesangial cells "

S. Lamas. Centro Superior de Investigaciones Científicas. Madrid

" Dissociation by Ca-channel blockers of the effects of endothelin in DNA synthesis, cellular proliferation and c-fos expression on mesangial cells"

J.M. López Novoa. Facultad de Medicina. Salamanca

" Effect of angiotensin II and endothelin I on matrix protein synthesis by cultured renal cells"

M. Ruiz, D. Gómez, R. Largo, M. Ortego, E. González,
J. Egido. Fundación Jiménez Díaz. Madrid

" Role of Somatostatin in the regulation of GFR; analysis of the implied mechanisms"

D. Rodríguez Puyol. Hospital Príncipe de Asturias. Alcalá de Henares

Progressive renal failure

" Effect of protein content of the diet and remnant renal mass on the progression of chronic renal failure"

D. del Castillo, D. Fonseca, A. Martín Malo P. Aljama. Hospital Reina Sofía. Córdoba

" Antiproteinuric effect of CEI and its influence on the progression of renal failure"

M. Praga. Hospital 12 de Octubre. Madrid

" Comparison of the additive effects of low protein diet plus CEI with low protein diet plus calcium antagonists in preventing the progression of chronic renal insufficiency"

L.M. Ruilope. Hospital 12 de Octubre. Madrid

21.30 Dinner

Executive Committee "Jiménez Díaz Memorial Lecture"

Symposium on Experimental Nephrology participants

May 18th

12.00 XXVI Jiménez Díaz Memorial Lecture

Prof. Barry M. Brenner

Harvard University School

Chronic Renal Disease- A disorder of Adaptation

16.00 Meeting

Executive Committee "Jiménez Díaz Memorial Lecture"
Election Lecturer 1.995

21:30 Dinner

Executive Committee "Jiménez Díaz Memorial Lecture"
Prof. Barry M. Brenner. Welcome Dinner
